ArgDiaP 2013: the 10th ArgDiaP Conference "Speech Acts and Arguments"

18 May 2013, Warsaw Poland

AND

IGSAR 2013: the 1st Interdisciplinary Graduate School on Argumentation and Rhetoric "Social Dynamics of Argument"

16-18 May 2013, Warsaw Poland

ArgDiaP is the Polish nationwide initiative dedicated to argumentation, dialogue and persuasion. Since 2008, we have been organising a series of biannual one-day conference meetings. A collection of extended papers presented at the previous international ArgDiaP editions will be published as a special issue of Springer's journal "Argumentation" devoted to the Polish School of Argumentation (vol. 3, 2014).

The 10th ArgDiaP conference is dedicated to speech act theory - one of the most prominent philosophical traditions which strongly influenced the study of communication and argumentation in the 20th century. The conference is co-organised in conjunction with a three-day graduate school IGSAR. Both events take place in Warsaw at the Polish Academy of Sciences and are supported by the European Network for Social Intelligence, Sintelnet.

Special guest

- John Searle (Dept. of Philosophy, University of California, Berkeley)

Other speakers

- Katarzyna Budzynska (Inst. of Philosophy and Sociology, Polish Academy of Sciences)
